Kentucky Child Care Standards of Practice for Licensed Providers

Introduction and Purpose

This document is intended to educate and inform child care providers, Cabinet for Health and Family Services Division of Regulated Child Care employees and child care Technical Assistance providers about the regulatory standards for licensed and certified family child care providers. The information contained in this document is not to be used as a substitute for state requirements. It is to be used in conjunction with the Kentucky Revised Statutes (KRS 199.894 to 199.8982), and the Kentucky Administrative Regulations (922 KAR 2:090, 2:100, 2:120, 2:190 and 2:280) to promote regulatory compliance, uniformity, competency and ethical practice for Cabinet employees who regulate and technical assistance staff who provide regulatory information to state approved child-care providers.

The Standard of Practice (SOP) is written in the following format: The “Title #”, “Category”, and “Title” are references to the Division of Regulated Child Care’s survey tool. The Child Care Regulation Text is the specific regulatory language found in the Kentucky Administrative Regulations governing child care. The Child Care Technical Assistance Guide is a suggested resource and example for a technical assistance provider to assist child care providers in meeting the specific requirements. The purpose of this section is to counsel technical assistance providers throughout the state on Kentucky Child Care Regulations. This section does not interpret regulation; however, it is a guideline and tool to be used as a means to coach providers consistently across the state. The “Regulated Child Care Survey Method” is the Division of Regulated Child Care’s process for surveying to determine compliance with Kentucky Administrative Regulation child care requirements.

The information contained in this document is for the explicit use by child care providers, the Cabinet for Health and Family Services, Division of Regulated Child Care employees and Technical Assistance providers.

Child Care Regulation Text	<p>922 KAR 2:280. Section 3. Implementation and Enforcement.</p> <p>(1) A person who is a child care staff member prior to January 1, 2018, shall submit to and complete background checks in accordance with this administrative regulation no later than September 30, 2018.</p> <p>(2) A child care staff member hired on or after April 1, 2018, shall:</p> <p>(a) Have completed the background checks required in accordance with this administrative regulation and found to have no disqualifying offense prior to becoming a child care staff member; or</p> <p>(b) 1. Have submitted to the background checks required in accordance with this administrative regulation;</p> <p>2. Not be left unsupervised with a child in care pending the completion of the background checks in accordance with this administrative regulation; and</p> <p>3. Be dismissed or relocated from the residence if the person is found to have a disqualifying background check result;</p>
Guideline (s) for Child Care Technical Assistance	<p>The National Background Check Portal (NBCP) requires that the provider have access to the KARES system on the Kentucky Online Gateway.</p> <ul style="list-style-type: none"> • The provider must be able to scan and upload copies of the photo ID and print forms when completed. • All current certified family child care home providers and adult household members must complete the new background check process through the National Background Check Portal before September 30, 2018. • The Division of Child Care has developed a recommended schedule to ensure that all family child care providers complete the process between March 2018 – September 2018. • The provider must maintain on file for review the previously required Central Registry Check, Criminal Record Check and out of state check if applicable <p>Any person (substitute, assistant) hired after April 1, 2018, must submit to the NBCP background check system prior to working in the home. Once the fingerprints have been scanned, the assistant or substitute may work in the home but cannot be alone with a child until the results of the background check are received.</p> <p>Questions should be submitted to: chfsdccnbc@ky.gov</p>
Regulated Child Care Survey Method	<p>Surveyors should review KARES, prior to conducting an inspection.</p> <p>Surveyors should review staff schedules, observe and document staff names to determine who is working with the children.</p> <p>A staff member can be provisionally hired and work/live in the home after they have submitted to the live fingerprint scan, but may not be left unsupervised with children.</p>

Title	Submit background check
Child Care Regulation Text	<p>922 KAR 2:280. Section 4. Procedures and Payments.</p> <p>(1) To initiate the process for obtaining background checks on a prospective child care staff member, the child care provider shall:</p> <p>(a) Request that the prospective child care staff member provide a copy of his or her driver's license or other government-issued photo identification and verify that the photograph clearly matches the prospective child care staff member;</p> <p>(b) Request that the prospective child care staff member complete and sign the:</p> <ol style="list-style-type: none"> 1. DCC-500, Applicant Child Care Staff Member Waiver Agreement and Statement; and 2. DCC-501, Disclosures to Be Provided to and Signed by the Applicant Child Care Staff Member; and <p>(c) Log on to the NBCP portal and enter the prospective child care staff member's demographic information for a check of the:</p> <ol style="list-style-type: none"> 1. Child abuse and neglect central registry pursuant to 922 KAR 1:470; 2. National Crime Information Center's National Sex Offender Registry in accordance with 34 U.S.C. 20921; and 3. Sex Offender Registry established in accordance with KRS 17.500 through 17.580;
Guideline (s) for Child Care Technical Assistance	<p>All new staff are referred to in the NBCP system as "prospective employees." To ensure the child care center has the information needed to enter a new staff in the NBCP, have each person (provider, substitute, assistant, adults) in the center or home complete the Applicant Pre-Screening form. Although not required, the child care center will need the information on this form to complete the background check on the NBCP.</p> <p>Make a copy of the photo ID. There is a list of acceptable forms of identification on the NBCP; i.e., driver's license, government issued photo ID, passport, etc. Also, the provider is required by the regulation to check the ID to ensure it is not fraudulent. For example: does the picture on the ID match look like the person? The Waiver Form (DCC-500) and Disclosure Form (DCC-501) must be completed and signed by each person. These are required forms. Copies of all required forms are found on the NBCP portal.</p> <p>Maintain copies of these on file for review and provide copies to the Cabinet if requested.</p>
Regulated Child Care Survey Method	<p>Surveyors should review KARES prior to conducting an inspection. Surveyors can verify the provider has initiated the process on a prospective child care staff member.</p> <p>No staff member or adult household member should be present in the center or home with children prior to submitting to the live fingerprint scan.</p>

Title	Submit fingerprints
Child Care Regulation Text	<p>922 KAR 2:280. Section 4. Procedures and Payments.</p> <p>(4)(a) Upon submission of payment in accordance with subsections (2) and (3) of this section, the child care provider shall print a copy of the DCC-504, Applicant Child Care Staff Member Live Scan Fingerprinting Form, from the NBCP portal and provide the form to the child care staff member.</p> <p>(b) The child care staff member shall:</p> <ol style="list-style-type: none"> 1. Have no more than ninety (90) calendar days from the date of payment pursuant to subsections (2) and (3) of this section to submit the child care staff member's fingerprints at an authorized collection site for NBCP; and 2. Present the DCC-504 and driver's license or other government-issued photo identification to the designated agent at an authorized collection site prior to fingerprint submission;
Guideline (s) for Child Care Technical Assistance	<p>When setting up a prospective employee and/or adult household member on the NBCP, a live scan fingerprinting form (DCC-504) is generated on the final screen (lower left hand side of the screen.) Print the live scan fingerprinting form. This form (the DCC-504) contains the addresses and contact information for three authorized fingerprint collection sites closest to the home address of the prospective employee. To complete the background check process, each prospective employee must go to an authorized collection site to submit their fingerprints. Ensure they take the DCC-504 and photo ID with them to the collection site.</p> <p>Once a record is set up on the NBCP, the provider must submit their fingerprints within ninety (90) days or their record will be removed from the system.</p>
Regulated Child Care Survey Method	Surveyors should review KARES prior to conducting an inspection. Surveyor will compare date that the fingerprints were obtained with date of payment to determine no more than ninety (90) calendar days has lapsed.

Child Care Regulation Text	<p>922 KAR 2:090. Section 6. License Issuance.</p> <p>(8) To qualify for a preliminary license, or maintain a regular license, a child-care center shall:</p> <p>(c) Have an approved water and sewage system in accordance with local, county, and state laws;</p>
Guideline (s) for Child Care Technical Assistance	A view of a recent bill from the local water and/or sewage agency will verify that the child care center is receiving services from an approved source. If the child care center has a septic system, they must obtain approval from the local Health Department that the system is large enough for the capacity of the child care center. If the child care center has well water or a water cistern, this must also be approved by the Health Department.
Regulated Child Care Survey Method	Review written documents to verify approved water/sewer source and to ensure alternative water supplies (cistern and well systems) and septic systems are inspected and approved according to requirements.

Title	Plan of Correction/15 days
Child Care Regulation Text	922 KAR 2:090. Section 14. Statement of Deficiency and Corrective Action Plans. (2) Except for a violation posing an immediate threat as handled in accordance with KRS 199.896(5) (c), a child-care center shall submit a written corrective action plan to the cabinet or its designee within fifteen (15) calendar days of the date of the statement of deficiency to eliminate or correct the regulatory violation;
Guideline (s) for Child Care Technical Assistance	A statement of deficiency (SOD) identifies the administrative regulation and a statement of how the regulation was violated. The cabinet forwards the SOD to the licensed child-care center if violations existed during an inspection or investigation. A corrective action plan or plan of correction (POC) is written, signed by a center designee and submitted to the cabinet or designee within fifteen (15) days of receipt of the SOD. The completed POC may be mailed, e-mailed, faxed or hand delivered to the regional Division of Regulated Child Care office. It is recommended that the POC be completed on the KICCS Provider Portal.
Regulated Child Care Survey Method	Review documentation in KICCS to determine if the POC was submitted within fifteen (15) calendar days. (POC can be submitted outside of the KICCS Portal) Failure to return the POC timely results in an additional regulatory violation.

Title	Person Under Investigation by DCBS
Child Care Regulation Text	<p>922 KAR 2:090. Section 8. General.</p> <p>(7) If a director, employee, volunteer, or any person with supervisory or disciplinary control over, or having unsupervised contact with a child in care is named as the alleged perpetrator in a child abuse or neglect report accepted by the cabinet in accordance with 922 KAR 1:330, the individual shall be removed from direct contact with a child in care:</p> <p>(a) For the duration of the assessment or investigation; and</p> <p>(b) Pending completion of the administrative appeal process for a cabinet substantiation of child abuse or neglect in accordance with 922 KAR 1:320 or 922 KAR 1:480;</p>
Guideline (s) for Child Care Technical Assistance	<p>The child care center shall ensure the alleged perpetrator has no direct contact with a child in care. For most centers this means the person should not be allowed on the premises during the hours of operation. There may be work that can be completed by this person in a remote area of the building or at another location that would not require the alleged perpetrator to be in contact with the children.</p> <p>If the allegation is substantiated, the perpetrator may choose to appeal the finding. During the time of appeal, the alleged perpetrator will not be allowed to have direct contact with a child in care. If the finding of substantiation is upheld, the person must not be present at the center during the hours of operation.</p> <p>If the appeal results in an unsubstantiated finding, the person may resume their normal duties at the child care center.</p>
Regulated Child Care Survey Method	<p>Interview the Department for Community Based Services (DCBS) worker and/or review the DPP 115 to verify the alleged perpetrator. Observe persons present at the center to determine if the alleged perpetrator is present. Document the role of the alleged perpetrator.</p> <p>Interview to determine if the director is aware the person is named as an alleged perpetrator.</p> <p>Determine the individual's job duties while the investigation is ongoing or pending the outcome of the appeal process.</p> <p>Surveyors should contact DCBS to ask for written notification of the finding.</p>

Title	Sick Child Exclusion
Child Care Regulation Text	922 KAR 2:120. Section 7. First Aid and Medicine. (2) A child showing signs of an illness or condition that may be communicable shall not be admitted to the regular child-care program;
Guideline (s) for Child Care Technical Assistance	Health checks should be performed upon arrival of each child. A health check can be as simple as greeting the child upon arrival and assessing their well-being. Staff should be well informed of the child care center's policy on child illness and communicable disease to ensure they follow the correct protocol in determining if a child is too ill to remain at the child care center.
Regulated Child Care Survey Method	Interview and/or review documentation to determine the center's sick child protocol if not observed during inspection. If a child must be isolated from other children in another area, such as the director's office, make sure that the child is not left unsupervised.

Title	Sick Child Protocol
Child Care Regulation Text	922 KAR 2:120. Section 7. First Aid and Medicine. (3) If a child becomes ill while at the child-care center: (a) The child shall be placed in a supervised area isolated from the rest of the children; (b) The parent shall be contacted immediately; and (c) Arrangements shall be made to remove the child from the child-care center as soon as practicable;
Guideline (s) for Child Care Technical Assistance	The child care center should determine if it is acceptable for the child to remain in the classroom until an authorized person can come to the child care center for pick up. Many times the child may need to be moved to another area to avoid further contamination of the classroom. It is the responsibility of the child care center to continue to monitor the child's health. The child care center should be prepared to request the assistance of emergency medical personnel if they determine that the child's health is at risk.
Regulated Child Care Survey Method	Interview and/or review documentation to determine the center's sick child protocol if not observed during inspection. If a child must be isolated from other children in another area, such as the director's office, make sure that the child is not left unsupervised.

The designation of one (1) adult staff person in charge to carry out the director's duties if the director is not present in the child-care center during operating hours. The director shall be responsible for the actions of the designee during the director's absence;</p>
Guideline (s) for Child Care Technical Assistance	If the director is going to be away from the child care center, they must appoint one adult staff to be in charge that is able to carry out the duties of the director during the hours of operation. This person should have access to all records, policies/procedures, etc.
Regulated Child Care Survey Method	<p>The director is responsible for regulatory compliance and for designating an adult staff in charge during their absence.</p> <p>Interview to determine whether the director has designated one adult staff person as being in charge when the director is not present in the child care center. Interview to determine whether the designee has access to all records, policies/procedures, etc.</p>

Title	Staff Evaluation
Child Care Regulation Text	922 KAR 2:090. Section 10. Director Requirements and Responsibilities. (1) A director shall: (j) Assess each staff person's interaction with children in care and classroom performance through an annual written performance evaluation;
Guideline (s) for Child Care Technical Assistance	This requirement will ensure that directors take an active approach to assessment (more than just giving a good score because lesson plans are submitted for review on a timely basis.) Observing a staff person's interaction with the children will ensure the policies and procedures are being implemented appropriately in the classroom setting and in the care of the child.
Regulated Child Care Survey Method	Review documentation and interview to determine compliance. Annual is last full calendar year.

Title	Parent Notification
Child Care Regulation Text	<p>922 KAR 2:090. Section 10. Director Requirements and Responsibilities.</p> <p>(1) A director shall: (m) Notify the parent immediately of an accident or incident requiring medical treatment of a child;</p>
Guideline (s) for Child Care Technical Assistance	<p>"Medical treatment" refers to care administered by a licensed or certified health care professional.</p> <p>The director must ensure that a parent is notified immediately when their child requires medical treatment. If the parent and emergency contacts are unable to be reached, it is good practice to document each attempt to contact.</p> <p>Inability to reach the parent should not delay the director from obtaining medical treatment for the child.</p>
Regulated Child Care Survey Method	<p>Interview and review documentation to determine compliance.</p> <p>Medical treatment of a child is treatment or assessment by a health care professional, not first aid administered by staff. Surveyors should determine whether the center has notified the parent of an accident or incident requiring medical treatment through record review and interview.</p>

Child Care Regulation Text	<p>922 KAR 2:090. Section 10. Director Requirements and Responsibilities.</p> <p>(1) A director shall: (p) Coordinate at least one (1) annual activity involving parental or family participation;</p>
Guideline (s) for Child Care Technical Assistance	<p>The director should keep documentation to verify that an activity was conducted, i.e., photos, invitations, agendas. These documents may also serve as marketing items to new families who would like to learn more about the child care center.</p> <p>The child care center can determine what type of annual activity would work best for their families, parents and children. For example: a child care center who cares for children of working parents would want to plan something after work or on weekends to avoid having a parent take off work to attend. Family and parent events could include an Open House, a reading night, a cookout, a playground clean-up day, or a holiday party.</p>

Title	35 Square Feet per Child
Child Care Regulation Text	<p>922 KAR 2:120. Section 4. Premises Requirements.</p> <p>(6) Exclusive of the kitchen, bathroom, hallway, and storage area, there shall be a minimum of thirty-five (35) square feet of space per child;</p>
Guideline (s) for Child Care Technical Assistance	<p>When determining the capacity of child care center, rooms used for care will be measured. Each room will have a capacity based on the dimension of the room.</p> <p>The capacity determined by Division of Regulated Child Care (DRCC) may be lower than that given by the State Fire Marshal.</p> <p>When determining the capacity of the room, remember that this is space used for care and play. To calculate square footage, multiply the length of the room by the width. Then divide this number by 35 to determine the capacity of the room.</p> <p>There are areas of a room that would not be included in the capacity of the room. If there is a large desk, file cabinet or locked cabinet in the room that children are not allowed access to, this space would be subtracted from the room capacity.</p> <p>Kitchens, cafeterias, bathrooms, hallways and storage areas are not measured by DRCC and are not included in the capacity.</p> <p>Indoor gross motor play areas are dedicated spaces and will not be included in the maximum capacity.</p>
Regulated Child Care Survey Method	<p>Measure all child care areas (except the kitchen, bathroom, hallway and storage areas) to determine a capacity for each room. If the capacity has been determined, and it seems the space is too crowded, re-measure the area.</p> <p>Each classroom should be measured during an initial inspection or whenever necessary to determine the maximum number of children for each classroom. The teacher's desk or other equipment not used by the children is not included. Title	Plumbing Code
Child Care Regulation Text	922 KAR 2:120. Section 4. Premises Requirements. (13) All plumbing shall comply with the State Plumbing Code established in KRS Chapter 318;
Guideline (s) for Child Care Technical Assistance	The best way to obtain information is to check with the local Health Department. Any time there is a plan to make a change to the plumbing in the building, the child care center should contact the Health Department to see if an inspection or permit is required. If the child care center plans to add a sink for hand washing or an additional toilet, contact the Health Department. Existing buildings are assumed to be in compliance unless changes are made to the plumbing. Portable sinks do not comply with the code.
Regulated Child Care Survey Method	Existing buildings are assumed to be in compliance. New construction is required to be inspected prior to approval by the Public Protection Cabinet Division of Plumbing so documentation is not needed by Division of Regulated Child Care. Guideline (s) for Child Care Technical Assistance	Some rural areas may have septic systems. Septic systems are designed for a specific size/capacity and may no longer be adequate when a child care center is added. If the child care center has a septic system, be sure they contact the local Health Department to ensure the system is approved for use.

Title	Child Care Program Interference
Child Care Regulation Text	922 KAR 2:120. Section 4. Premises Requirements. (15) If a portion of the building is used for a purpose other than child care: (a) Necessary provisions shall be made to avoid interference with the child-care program; and (b) A separate restroom shall be provided for use only by those using the building for its child care purpose;
Guideline (s) for Child Care Technical Assistance	Many child care centers are located in shared spaces like churches and share open areas, gyms, cafeterias, etc. with groups who may be present for weekly activities. The child care center staff should work with the church to ensure that the activities of the church do not interfere with the safety, regular programming, and activities of the children. The bathrooms used by the child care center should be separate from the bathrooms used by the other business, organization or family members and their guests. If the center has a limited number of bathrooms available for use in the child care space, steps can be taken to ensure the bathrooms are “separate.” Some options might include: <ul style="list-style-type: none"> • Designate which bathroom will be reserved for use by the child care center by posting a sign on the door of the bathroom. • If the bathrooms have to be shared by several groups, staff might devise a schedule that allows different groups to use the bathroom at scheduled times of the day. • When a bathroom is in use by the child care center’s children, the staff would prohibit others from entering the bathroom until the child care center’s children have left the area. This would ensure the bathroom is separate from use by others.

Guideline (s) for Child Care Technical Assistance	An outdoor space is not required. An indoor space may meet the regulatory requirement if it is a suitable, dedicated space.
Regulated Child Care Survey Method	Observe the child care center for an outdoor gross motor area/playground. The indoor gross motor area is not counted in the square footage used to determine the maximum capacity of the center. If the indoor gross motor space is in lieu of an outdoor play area, a two (2) inch thick protective surface is required around indoor climbing equipment. Title	Fence Requirement
Child Care Regulation Text	922 KAR 2:120. Section 4. Premises Requirements. (20) An outdoor play area shall be: (a) Except for an after-school child-care program located on the premises of a public or state-accredited nonpublic school, fenced for the safety of the children;
Guideline (s) for Child Care Technical Assistance	The only exception to this regulation is the school-age child care programs that are located in schools. These programs do not have to have a fenced playground. If a preschool age program operates on the grounds of a school, the outdoor play area for the preschool program must be fenced.
Regulated Child Care Survey Method	Review the license to determine the licensed age groups. If the school is licensed to serve preschool age or observe to verify that they have a fence.

Title	60 Square Feet
Child Care Regulation Text	922 KAR 2:120. Section 4. Premises Requirements. (20) An outdoor play area shall be: (b) A minimum of sixty (60) square feet per child, separate from and in addition to the thirty-five (35) square feet minimum pursuant to subsection (6) of this section;
Guideline (s) for Child Care Technical Assistance	To determine the capacity of a playground, measure the width and length and multiply the two numbers. Then divide by 60. This determines the maximum capacity of a playground, i.e., $20 \times 30 = 600/60 = 10$. In this case, 10 children can play in the outdoor play area at one time. Outdoor play areas for infants, toddlers, and preschoolers must be fenced. The approved licensed space for outdoor play is inside the fenced boundaries of the outdoor play area. If a center wants to have an activity outside the fenced boundary of the outdoor play area, they must obtain written permission from the parent.
Regulated Child Care Survey Method	Observe the playground area. If it appears small or overcrowded with children, measure to determine the number of children that could be on the playground at any given time. If a playground will only hold a small number of children, the child care center must be able to show a written plan to assure that all children have gross motor play and the playground is not over capacity at any time.

Title	Bottle Preparation by Parent
Child Care Regulation Text	922 KAR 2:120. Section 9. Food and Meal Requirements. (4) Formula or breast milk provided by the parent shall be prepared and labeled;
Guideline (s) for Child Care Technical Assistance	If the bottles arrive unlabeled, the center should label them. Most parents choose to prepare their child's bottles with the appropriate serving of formula or breast milk. Other parents prepare and label a container of formula or breast milk that can be poured into empty bottles labeled with the child's name at the child care center. This allows staff to determine the appropriate serving amount and cuts down on waste. The container of unused formula or breast milk would be sent home at the end of the day. If the child care center provides (buys and supplies) the formula as part of their services, then the center may measure and mix the formula as needed. If the parent provides the formula but does not want to mix it ahead of time, the following system may be implemented: The parent would measure the appropriate amount of powdered formula into a container. The parent would measure the appropriate amount of water into another container. The containers of pre-measured water and formula would be delivered to the child care center. The staff would be able to mix the pre-measured water and formula as needed at the child care center.
Regulated Child Care Survey Method	Interview and observe to determine compliance. If the parent pre-measures the formula and the water, the center is able to mix the two components before feeding the child. The parent prepared the formula by measuring the components.

Child Care Regulation Text	922 KAR 2:120. Section 9. Food and Meal Requirements. (14) All children should be offered the same food items unless the child's parent or health professional documents a dietary restriction that necessitates an alternative food item for the child;
Guideline (s) for Child Care Technical Assistance	If it is an acceptable practice at the child care center, parents may still provide meals and snacks for their child. If the meal is provided by the parent, the providers must supplement the child's meal if it is missing dietary requirements. This may mean that the child care center keeps sandwich meat, bread, some single serving fruits and vegetables and a gallon of milk on hand in case of need. The child care center only has to supplement the meals of the children who are missing required components. For example, if the staff provide applesauce to one child who is missing a fruit, staff do not have to give applesauce to all the children. Each child must be served the required food components. If a child needs to deviate from any of the food requirements due to a dietary restriction, then the change should be documented in the child's file by a parent's signature
Regulated Child Care Survey Method	Observe and interview to determine compliance. Review documentation if an alternative food item is served to a child. It is not necessary to offer the supplement to all children if the other children's meals meet dietary requirements.

Contact information to enable a person in charge to contact the child's: <ol style="list-style-type: none"> (i) Parent at the parent's home or place of employment; (ii) Family physician; and (iii) Preferred hospital; c. The name of each person who is designated in writing to pick-up the child; d. The child's general health status and medical history including, if applicable: <ol style="list-style-type: none"> (i) Allergies; (ii) Restriction on the child's participation in activities with specific instructions from the child's parent or health professional; and (iii) Permission from the parent for third-party professional services in the child-care center; e. The name and phone number of each person to be contacted in an emergency involving or impacting the child; f. Authorization by the parent for the child-care center to seek emergency medical care for the child in the parent's absence;
Guideline (s) for Child Care Technical Assistance	<p>This information is to be in a location that is confidential and easy for the staff to access. A parent's signature is required to guarantee all information is correct. This information is to be collected on the child's first day.</p> <p>Storing files electronically is acceptable; however, files must always be accessible.</p> <p>If a third-party professional is working with the child, a written letter/release form from the parent/guardian of the child will also need to be kept on file.</p> <p>Third-party professional services include any professional coming into the center to work with an individual child for the child's general health status and medical history. OT/PT, early childhood mental health, etc. require parental consent in a child care center.</p> <p>Siblings' paperwork may be stored in one file; however, paperwork for each individual child must be maintained at the child care center. It is an unacceptable practice to have one form completed for multiple children in a family.</p>
Regulated Child Care Survey Method	<p>Review children's files to determine compliance.</p> <p>Siblings' forms may be placed in the same file; however, each child is required to have their own individual information.</p> <p>A third-party professional service is any professional that comes into the center to provide services to a child or a group of children. All children in contact with this professional are required to have parental permission on file.</p>

Title	Evacuation Plan
Child Care Regulation Text	<p>922 KAR 2:090. Section 5. Evacuation Plan.</p> <p>(1) A licensed child-care center shall have a written evacuation plan in the event of a fire, natural disaster, or other threatening situation that may pose a health or safety hazard for a child in care in accordance with KRS 199.895 and 42 U.S.C. 9858c(c)(2)(U);</p>
Guideline (s) for Child Care Technical Assistance	<p>The written plan to address emergency situations must include a designated relocation site and evacuation route, procedures for notifying parents and plan for reunification; procedures to address needs of individual children including those with special needs; development of duties and training of the staff; coordination with local emergency management. The written plan must be updated and submitted to the local emergency management by December 31st each year.</p> <p>The Division of Child Care has a form that meets the regulatory requirement or the provider may develop its own plan that contains the required components. When updating the form/plan annually if there are NO CHANGES, the provider should:</p> <ul style="list-style-type: none"> • Mark through the date and record the new date • Write “No changes” • The provider signs his/her name • Make a copy of the plan before you send it in and always record the date the plan was submitted to emergency management. <p>If the Division of Child Care Emergency/Disaster Preparedness Plan Form is used, the first and last page of the document should be re-dated and re-signed. When completing the form/plan annually, a new form/plan must be completed and submitted if there ARE ANY CHANGES. Do not mark through items on the original form/plan and do not attach a sheet that contains multiple changes.</p>
Regulated Child Care Survey Method	<p>Review the written plan to ensure it describes, in detail, how children will be kept safe during any disaster, and ensure the plan meets the specific requirements listed in KRS 199.895.</p> <p>The plan must be revised and submitted to the local emergency preparedness agency each year. If the plan does not change, the provider can note “no change” and the new submission date. If the evacuation plan does change, a new plan must be submitted.</p>

Title	Policies and Procedures
Child Care Regulation Text	<p>922 KAR 2:090. Section 8. General.</p> <p>(4) Program policies and procedures shall:</p> <ul style="list-style-type: none"> (a) Be in writing; and (b) Include: <ul style="list-style-type: none"> 1. Staff policies; 2. Job descriptions; 3. An organization chart; 4. Chain of command; and 5. Other procedures necessary to ensure implementation of: <ul style="list-style-type: none"> a. KRS 199.898, Rights for children in child-care programs and their parents, custodians, or guardians - posting and distribution requirements; b. 922 KAR 2:120, Child-care center health and safety standards; c. 922 KAR 2:280, Background checks for child care staff members, reporting requirements, and appeals; and d. This administrative regulation;
Guideline (s) for Child Care Technical Assistance	<p>It is the responsibility of the administrative staff to ensure that each staff person receives a copy of the written policies and understands the policies. If a staff person is unable to read, the policies should be read to them.</p> <p>Written staff policies might include: maintaining confidentiality, how to administer medication, orientation training policy, reporting child abuse and neglect, sanitation policies including hand washing, and use of a cell phone while on duty.</p> <p>Job descriptions typically include expectations for classroom management, what to wear to work, training or ongoing educational requirements, and upkeep of work area. Job descriptions should be written to address the specifics of each position. Job descriptions should be developed for administrative staff, classroom teachers, floaters, substitutes, van drivers, van monitors, volunteers, cooks, janitors, etc.</p> <p>An organizational chart would include the flow of authority and responsibility for operation of the child care center. The organizational chart may include a board of directors, administrative staff, caregivers, cooks, janitors, etc. This written delegation of administrative authority includes designating the person in charge of the center and the person(s) in charge of individual children for all hours of operation.</p> <p>A chain of command should be posted on the parent board. The chain of command should include the names of the people who are "in charge", responsible for the day-to-day management and able to fulfill the duties of the director if the director is absent. These people would be able to guide the center through an emergency situation or assist a Division of Regulated Child Care surveyor with an inspection or survey. Typically the name of the director, assistant directors, and shift supervisors are listed.</p> <p>Include the "Child and Parent Rights" posting on the parent board. This posting should state that parents have the right to visit their child at the center at any time. In addition, a copy of these rights is to be provided to the parent or guardian of the child at the time of the child's enrollment.</p>
Regulated Child Care Survey Method	<p>Review documentation to ensure compliance.</p> <p>Additional procedures can include, but are not limited to: discipline of children/staff, dismissal of staff/children, biting, toilet training, etc.</p> <p>Review the chain of command to ensure that it lists current staff.</p>

Title	Daily Attendance Records
Child Care Regulation Text	<p>922 KAR 2:090. Section 9. Records.</p> <p>(1) A child-care center shall maintain:</p> <p>(c) Daily attendance records documenting the arrival and departure time of each child, including records that are required in accordance with 922 KAR 2:160, Section 13, if a child receives services from the child-care center through the Child Care Assistance Program;</p>
Guideline (s) for Child Care Technical Assistance	<p>School age children who leave the program to attend school must be signed out when they depart the center. School age children who arrive from school must be signed in upon their arrival. The regulation does not indicate who will sign the children in and out of care. Regulations do not state that a parent must sign the attendance record daily. It is ultimately up to the child care center to ensure that the record is kept and that it is accurate.</p> <p>The DCC-94E, Child Care Daily Attendance Record form is required for use for all children who are participating in the Child Care Assistance Program. This form does require the authorized parent/guardian or designated person to review the form and sign confirming that the arrival and departure times recorded on the forms are correct.</p> <p>The Child Care Daily Attendance Record form will also fulfill the attendance record requirement for child care licensing.</p>
Regulated Child Care Survey Method	<p>Review the children's daily attendance records to ensure a specific time (00:00 a.m. /p.m.) has been documented for each arrival and departure on a daily basis.</p> <p>If the center is a part of CCAP, each participating child's arrival and departure times must be documented on the required attendance record, DCC-94E. Staff can document the child's attendance daily, but the form requires the parent/guardian to review and sign weekly.</p> <p>Children may have more than one arrival and departure time per day.</p>

Title	Professional Development
Child Care Regulation Text	<p>922 KAR 2:090. Section 9. Records.</p> <p>(1) A child-care center shall maintain: (f) A written annual plan for child-care staff professional development;</p>
Guideline (s) for Child Care Technical Assistance	<p>The plan should be in writing and must be developed within the first year of employment and must be updated and completed annually. It is best to do a staff development plan for each individual staff, personalizing the plan to the needs of that individual.</p> <p>The staff development plan for a classroom teacher might include: orientation training, ongoing training or education, CPR and First Aid certification, community or professional organization participation, classroom goals or ways to improve the classroom environment.</p>
Regulated Child Care Survey Method	<p>Record review to determine compliance.</p> <p>The professional development plan may include goals and a plan to complete orientation, child development trainings, and other trainings/classes that will provide staff members with the opportunity to grow professionally.</p> <p>Regulations do not require the professional development to be individualized; however, if the center has individualized plans, each staff must have their own.</p>

Title	Confidentially/Maintenance/Access
Child Care Regulation Text	<p>922 KAR 2:090. Section 9. Records.</p> <p>(2) A child-care center shall:</p> <p>(a) Maintain the confidentiality of a child's record and information concerning a child or the child's parent;</p> <p>(b) Maintain all records for five (5) years; and</p> <p>(c) Provide the cabinet access and information in the completion of the investigation pursuant to KRS 620.030(4) and (5);</p>
Guideline (s) for Child Care Technical Assistance	<p>Sharing information with parents, friends, or other staff who have no supervisory control over a child is unacceptable. Written records should be stored in a manner that maintains confidentiality.</p> <p>Representatives of the cabinet (i.e., Division of Regulated Child Care surveyor, Child Protective Services representative) must have access to children's records during an inspection or investigation. In addition, staff members who are interviewed must be forthcoming and honest with information pertaining to a child.</p>
Regulated Child Care Survey Method	<p>Observe and interview to determine compliance.</p> <p>Confidentiality of a child's record includes not posting a child's health history where other parents or guardians may view. However, these may be posted with written parental permission. Staff should not verbally share children's information with another child's parent or someone outside of the child care center. This may also include social media sites.</p> <p>KRS 620.030 refers to the reporting of suspected child abuse.</p>

Guideline (s) for Child Care Technical Assistance	<p>Child care center staff are all required to attend cabinet approved orientation training within their first 90 days of initial employment in the child care industry. Orientation training covers three areas: Health and Safety, Recognizing/Reporting Child Abuse and Neglect, and Recommended Practices in Early Care and Education.</p> <p>Each child care center must have a written policy requiring each employee to implement the procedures they were taught during orientation training. (Many centers include this policy in their employee handbook.)</p>
Regulated Child Care Survey Method	<p>Review records to determine compliance.</p> <p>The policy does not have to list the policies and procedures taught during the required six (6) hour orientation.</p> <p>If the center is equipped with video surveillance, the center shall provide the cabinet access to the video surveillance upon request.</p>
